

## PROJECT DESIGN PHASE-1

Date	15 October 2022
Team ID	PNT2022TMID30665
Project Name	NEWS TRACKER APPLICATION
Maximum Marks	4 Marks

### Problem Statement

In this chapter, we will discuss the background and objectives. Mobile news also has the potential to place the power of breaking news reporting in the hands of small communities and facilitate a much better exchange of information among users due to the ease of usage of mobile phones compared with conventional media such as radio, TV, or newspapers, though issues of quality, journalistic standards and professionalism are of concern to some critics.

### I am (USER)

Admin has to upload the news to the news API.

### I am Trying To

The main focus of this application is to connect news articles from all around the world and deliver it to user as fast as possible in best visualize way.

### But

Immediate response to the queries is difficult and the user can't view the news of different cities.

### Because

The proposed system is developed after a detailed study of the requirements requested by the user.

### Which makes me feel?

This system can save time for users. It can also give information about entertainment new, and trending topics. The main aim of this project is to develop a newspaper where everyone in society can read recent news, events, sports, etc
